

Knitting a 20"x20" square blanket

- A. Using size 4 (old 8) needles, cast on 120 stitches.
- B. Work in your preferred stitch until the work measures 20".
- C. Cast off.

NB: To stop the blanket curling you might like to knit a border by working 8 rows in garter stitch to begin with then work 8 stitches either end of the row remembering to work 8 rows at the end before casting off. This will form the border.
